# U.S. EXPORT SALES

- Outstanding Export Sales  
(Unshipped Balances)  
On November 2, 1975
- Export shipments in  
Current Marketing Year
- Daily Sales reported  
November 3 - 11, 1975

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on release of November 13, 1975 (based on reports from exporters during the week ending November 2, unless otherwise noted):

USSR GRAIN PURCHASES:

U.S. grain commitments to the Soviet Union through November 11, 1975 total 13.2 million metric tons (MT), consisting of 4.5 million MT of wheat, 8.6 million MT of corn, and 75,000 MT of oats. Since the moratorium on further sales was lifted on October 20, the U.S. has sold 2.7 million MT of corn to the USSR.

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1975/76 increased by 882,600 metric tons (MT), bringing this year's total commitment to 20.3 million MT. About 38% or 331,400 MT of the total increased commitments were to India; increased commitments of 220,000 MT to the USSR accounted for another 25% of the total. Commitments to the European Community (EC) and various African countries increased by 86,000 MT and 93,600 MT, respectively.

Feedgrains: The apparent export commitment for 1975/76 increased by 1,702,300 MT to a total of 18.4 million MT. Corn commitments increased by 1.3 million MT, 20% less than last week's increment. Most of the change in corn commitments was attributable to higher commitments to the USSR (660,600 MT), EC (205,000 MT), Mexico (193,400 MT), and Japan (110,600 MT). Sorghum commitments to Japan jumped by 352,000 MT, accounting for 86% of the increase in total sorghum commitments.

Since November 2, two corn sales to the USSR totalling 1.1 million MT were reported under the daily reporting system: 600,000 MT for November 1975-July 1976 delivery and 500,000 MT for December 1975-April 1976 delivery.

Soybeans: The apparent export commitment for 1975/76 increased by 237,500 MT, primarily reflecting increased commitments to the Republic of China (Taiwan), West Germany, the Netherlands, and Japan. Commitments to unknown destinations declined. Exports during the week totaled 465,300 MT, the largest weekly volume shipped so far this marketing year. The major takers were the EC, Japan, and Taiwan.

U.S. soybean production is now forecast at 41.4 million MT, up 3 percent (1.25 million MT) from last month's forecast and 23 percent above last year's production.

Combined net imports of oilseeds and meals into 6 major markets (Japan, West Germany, France, Spain, United Kingdom and Denmark) during the October 1974-August 1975 period totaled 12.8 million metric tons or 2 percent below the 13.1 million tons imported during the same 11 months of 1973/74. The decline was equal to the meal fraction of 12 million

bushels of soybeans and reflected a significant decline in imports during the July-August period. Normally, total meal consumption in these 6 countries has grown by an annual trendline volume of 760,000 tons.

Imports of soybeans and meal into the same 6 countries during the October 1974-August 1975 period were just over 9.0 million tons -- 332,000 tons or 3.5 percent below imports during the same period in 1973/74. The decline in imports of soybeans and meal, primarily by Japan the United Kingdom, accounted for virtually all of the decline in total oilseed and meal imports. Increased imports of fishmeal, copra, and palm kernel meals about offset smaller movements of peanut, cottonseed, rapeseed and linseed meals. As soybean meal remains favorably priced relative to corn, the key limitation in demand appears to be smaller animal and poultry numbers.

Soybean Oilcake and Meal: The apparent export commitment for 1975/76 increased by 128,700 MT, the largest weekly increase recorded this marketing year. The increase primarily reflects additional commitments to the EC, Hungary, Canada and Unknown destinations. Commitments to East Germany declined. Exports during the week totaled 105,500 MT, primarily to the EC (71,100 MT), Hungary (14,700 MT), Canada (10,000 MT) and Spain (5,500 M T ).

Cotton: The apparent export commitment for Upland cotton in 1975/76 increased by 44,000 running bales (RB), primarily as a result of new sales to Indonesia and Canada. At 38,000 RB, exports were below the 63,000 RB average for the first 12 weeks of this marketing year. Markets generally remained inactive although there was some evidence of increased activity in Western Europe. Low prices as well as dry weather have discourage cotton plantings in Southern Brazil and late season uncertainties have arisen concerning the Soviet crop. In contrast, the Indian crop could be significantly larger than previously expected.
